

## PATRIOT® IN-LINE® PATMD-LW Series

The BURNDY® PATRIOT® IN-LINE® tool platform has been redesigned to meet the growing market need for a smaller, lighter, and more ergonomic IN-LINE tool.

The PATMD-LW series weighs just 6.7 lbs. and is only 18.70" in height. This represents a 14% reduction in weight and an 11% overall length reduction compared to the current PATMD series; offering unrivaled ergonomics and comfort. Newly redesigned, robust jaws featuring proprietary locking tabs and a spring release pin, simplify the jaw change

#### Markets & Applications

- Utility
- C&I
- Oil & Gas
- Renewable Energy
- Telecommunications
- Transportation

### Features and Benefits

- **Compact Size** — Reduced weight and length; 14% lighter and 11% shorter for unmatched ergonomics and comfort
- **Robust Jaw Design** — Improves tool balance and user experience
- **Scissor-Action Interchangeable Jaws** — Simplifies the crimping and cutting processes
- **Locking Tabs** — Retain the jaws in place when the change-out pin is released for quick jaw changeover and user safety
- **LED Worklight** — Lights up the work area
- **350° Rotatable Head** — Allows the tool to be used in multiple positions for hard to reach areas
- **Large Triggers and Hand Grip Area** — Allows for easy operation and comfort while wearing work gloves
- **Trigger Lock Safety Switch** — Prevents accidental operation of the tool
- **Manual Drain Trigger** — Provides total control of the crimping process
- **Quick-Release Actuated Blade Guide** — Automatically closes to isolate cables for easy positioning and guides the blades through the cutting cycle
- **Makita Battery and Charger** — For long lasting power
- **Lifetime Warranty** on INFINITY DRIVE® Transmission
